Between 2019 – nykomponerad elektroakustisk musik i immersiva ljudsystem

Kungliga Musikhögskolan i Stockholm bjuder in till internationell festival 8-13 november 2019.

Internationella och svenska forskare, musiker, tonsättare och konstnärer samlas tillsammans med studenter från KMH för att presentera en festival för konst, vetenskap och teknologi. Över femtio nya verk med musiker, elektronik och projektioner spelas i konsertsalarna. Musiken ljuder även över KMHs foajé och gård, spatialiserad för många högtalare i immersiva ljudsystem. Fokus på digital kreativitet, konstnärlig forskning, spatialisering och artificiell intelligens öppnar upp för experimentella utforskningar och oväntade kopplingar. Sex intensiva dagar med mängder av konserter, installationer, presentationer, workshops och utställningar. Öppet för alla – fri entré och biljettbokning på kmh.se. Välkomna!

Festivalen Between 2019 arrangeras som del i EU-projektet European Art Science Technology Network for Digital Creativity (EASTN-DC), ett nätverk med sjutton partners i Europa, USA, Kanada och Brasilien med stöd av the Culture Program of the European Union 2017-2021.

Between 2019 – new electroacoustic music in immersive sound systems

The Royal College of Music in Stockholm (KMH) opens its doors for an international festival November 8-13 2019.

Researchers, musicians, composers and artists, both international and Swedish, will gather together with students from KMH to present a festival of art, science and technology. Over fifty newly composed works with musicians, electronics and projections will be performed in the concert halls. The music will also sound from the foyer balconies as well as outside in KMH's courtyard, spatialised for multiple loudspeakers in immersive sound systems. The focus on digital creativity, artistic research, spatialisation and artificial intelligence opens up for experimental explorations and unexpected connections. Six intense days with numerous concerts, installations, presentations, workshops and exhibitions. Open to all – free entrance and ticket reservation at kmh.se. Welcome!

The festival Between 2019 is produced as part of the EU project European Art Science Technology Network for Digital Creativity (EASTN-DC), a network with seventeen partners in Europe, USA, Canada and Brazil supported by the Culture Program of the European Union 2017-2021.

Abstract

How is space conceptualized and put into practice in music and sound art today? *Building on my volume Music, Sound and Space*, in this lecture I pursue the evolving ways in which music produces space and space produces music, in an attempt to bring some clarity to this burgeoning dimension of compositional practice. I add insight into the institutional conditions that have favored evolving paradigms; and I pursue, in particular, the ways in which the spatial qualities of certain strands of electroacoustic music and sound art configure distinctive kinds of musical publics. The overarching message is that these dimensions of compositional and musical practice demand to be engaged with reflexively by musicians and composers. The effect is to make explicit how musical space can be inventively reworked, and how closely linked these processes are to social dimensions of musical experience.

Bio

Georgina Born OBE FBA is Professor of Music and Anthropology at Oxford University. Earlier, she worked as a musician with Henry Cow, Feminist Improvising Group, Derek Bailey's Company and other groups and was a member of the London Musicians' Collective. Her work combines ethnographic and theoretical writings on music, sound, television and digital/media. Her books are *Rationalizing Culture: IRCAM, Boulez, and the Institutionalization of the Musical Avant-Garde* (1995), *Western Music and Its Others* (2000), *Uncertain Vision: Birt, Dyke, and the Reinvention of the BBC* (2005), *Music, Sound and Space* (2013), *Interdisciplinarity* (2013), and *Improvisation and Social Aesthetics* (2017). She directed the ERC-funded research program 'Music, Digitization, Mediation: Towards Interdisciplinary Music Studies' and has held visiting professorships at UC Berkeley, McGill and Oslo Universities and in 2019 was distinguished visiting professor at UC Irvine. Born chairs the Culture, Media and Performance Section of the British Academy.
